Principle of Attracting Girls

1

Interested girls are directed to a lead form to submit their information.

3

Application in Telegram

The submitted applications are automatically sent to Telegram for processing.

Facebook/Instagram Advertising

Girls' Salary

This is a key factor that a girl pays attention to first. The higher the salary, the greater the chance of attracting a girl to work specifically with you.

Advantages of working with you

This plays an important role in attracting a girl to work in the agency. For example, advantages of working with you:

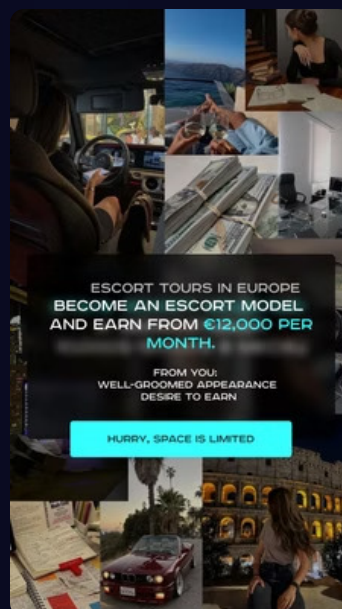

- Free professional photoshoot - 50/50, 60/40 split
- Free accommodation - Fully paid tickets / credit for tickets
- Tips and gifts for full-service girls
- 50/50 split - only for classic service, even a kiss is considered an extra and income for full-service girls

Criteria for working in the agency

This mainly relates to appearance, figure, and any habits. This will allow you to attract exactly the girls you need.

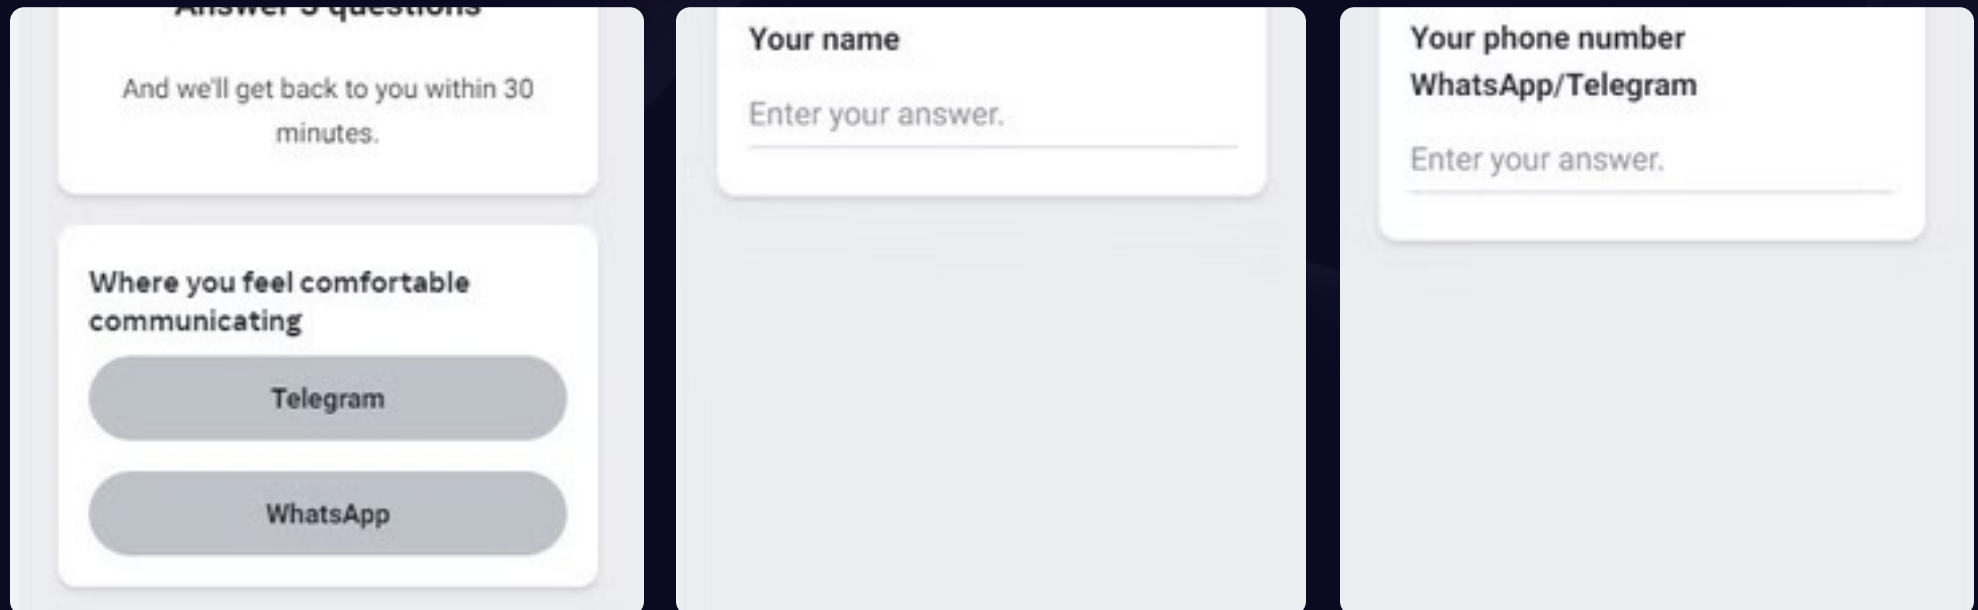

Examples of advertising creatives that I launched for European countries:

Lead Form

Girls who are interested in the advertisement are directed to a lead form. The lead form is a one-page website where a girl leaves her application in the format of a name and phone number. This application is automatically sent to Telegram, where your manager should process it.

Applications look like this:

The lead form looks like this:

The nuances of processing an application are as follows:

1. You need to start processing the application within **30 minutes** after it arrives. This is the optimal time for processing. The faster you start processing the application, the more likely the girl will engage in a dialogue with you.
2. **Process the application correctly.** The cost of a girl hired to work in the agency directly depends on how her application is processed by your manager. With good processing, her cost comes out to **\$100-\$200**. With poor processing, the girl costs **\$400+**

Advantages of Facebook/Instagram Advertising

Relevance

At the moment, the market for escort agency advertising on Facebook/Instagram is small, as many marketers don't know how to bypass Facebook moderation, so there is almost no competition. Target girls come. Thanks to the fact that I can write everything necessary to find a girl without fear of being blocked, the girls who come will be exactly the ones you need. Advertising can be launched for any country, except Russia.

Price and effectiveness

This source of attracting girls is cheaper and more effective than other sources (banners on websites, job postings, etc.) due to its novelty and low competition in the Facebook/Instagram advertising market.

Stable flow of applications

The advertising will work 24/7, so applications from girls will come in constantly.

Case Study of Working with an Escort Agency

Results of Our Collaboration

The screenshot shows the Facebook Ads Manager interface. At the top, it says 'Ad sets' with a search bar containing '1156054222390891 (11560...)' and a status 'Updated 12 minutes ago'. There are buttons for 'Discard drafts' and 'Review and publish (7)'. Below this is a 'Search and filter' bar and a date range 'Aug 1, 2024 - Sep 30, 2024'. The main section has tabs for 'Campaigns', 'Ad sets', and 'Ads for 1 Ad set'. The 'Ad sets' tab is selected, showing a table with columns: Off/On, Ad set, Results, Reach, Frequency, Cost per result, Budget, and Amount spent. Two ad sets are listed: 'Europe 2' and 'Europe'. A summary row at the bottom shows 'Results from 2 ad sets' with a total of 4,082 results and \$8,290.31 spent.

What Is Required From You

1. **Allocate an advertising budget.** The advertising budget is what you pay Facebook for displaying your ads. The larger the advertising budget, the more applications you will receive. I recommend starting with €50 per day.
2. **Pay for my services**
3. **Send the working conditions of your agency for girls.** This is necessary for creating advertising creatives
4. **Timely processing of applications within 30 minutes after receipt.**
